Sections | SIAM
siam.org/membership/sections
SIAM Sections
Sections are regional or national subgroups of SIAM members that organize lectures, meetings, and other activities to serve members in their region. SIAM encourages the formation of new Sections in regions not currently served by a Section.
About Sections
Membership in most Sections is free and automatic for any current SIAM member living in the geographical area served by the Section. To get involved with a Section, simply find and attend a Section activity or event or contact the Section officers in your area. Contact information can be found on each Section's webpage. If there is not a Section currently serving your geographic area, consider starting one!
